

**FAMILY
HEALTH
CENTERS**
AT NYU LANGONE

The Family Health Centers at NYU Langone offers the following financial assistance to those who qualify and cannot pay for their medical care.

Discount program, referred to as a sliding fee scale that assures that patients have access to all the services offered at the health centers, regardless of their ability to pay, or household size/household income into consideration when determining an applicant's eligibility.

Information and assistance about insurance coverage. We participate in most major insurances including Medicare and Medicaid. Patients without insurance or whose insurance is limited can apply for the sliding fee scale program. Please note that applying for and/or being turned down for insurance is not a prerequisite for a sliding scale fee or other discount.

Please let a health center staff member know if you have any questions or wish to apply for the sliding scale discount program.
